

Capstone Foodbox

Project Developer: **Suraj Jaiswal**

The code for the project is hosted on:

This document contains the following sections:

- [Sprint Planning](#)
- [Core Concepts used in project](#)
- [Product capabilities and source code](#)
- [Conclusion](#)

Sprint Planning and Task Completion

Note: A separate document for sprint planning is attached to the Zip.

The project is planned to be completed in two Sprints. The tasks assumed to be completed are:

Sprint 1 :

- Flow chart of the application
- Initializing Git repository to track changes of development
- Writing the source code

Sprint 2 :

- Testing the program with various user inputs
- Pushing project to GitHub
- Creating documentation

Sprint 3:

- Testing the program with various user inputs
- Pushing project to GitHub
- Creating documentation

Core Concepts Used in the Project

- Spring
- Spring Boot
- JPA
- Postman
- Exception Handling
- React
- Bootstrap, HTML, CSS
- Redux
- Java
- MySQL database
- GitHub

Image Below |||

Product Capabilities

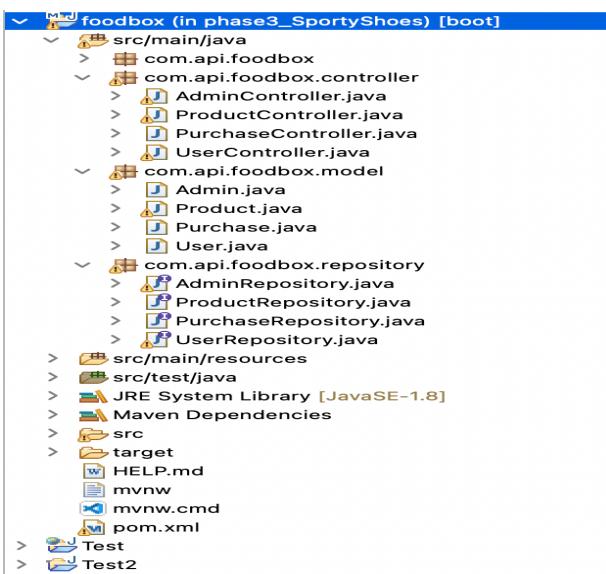

The application has the following capabilities:

1. Footbox Application
2. Food Box Controller
 - 3. 2.1. ProductController
 - 2.2. PurchaseController
 - 2.3. UserController
4. 2.4. AdminController
5. Food Box Model
 - 3.1. ProductModel
 - 3.2. PurchaseModel
 - 3.3. UserModel
6. 3.4. Admin Model
7. FoodBox Repository
 - 4.1. ProductRepository
 - 4.2. UserRepository
 - 4.3. PurchaseRepository

Source code for each of the capabilities with output is shown below:

Note: Complete source code, please check zip/Git Repository for reference.

HomePage:

Products Page:

A screenshot of the "FoodBox" products page. The header is identical to the homepage. Below it, a section titled "Latest Products" displays a grid of eight food items, each with a thumbnail image, name, brief description, price, and a "View" button.

Product	Description	Price
Chole Bhature [2 Bhature]	The all time Favourite! for Indian	₹129
Masala Dosa	The all time Favourite! for South Indian...	₹130
Fish Fry	The all time Favourite! for Indian	₹129
Chicken Korma	The all time Favourite! for Indian	₹129
Pasta	The all time Favourite! for Indian	₹129
French Fry	French Fry	₹229
Chinese Samosa	Chinese Samosa	₹229
Momo's	Chicken soup is one of the best comfort	₹229

Categories:

The screenshot shows a web browser with the URL localhost:3000/products/all. The page has a header with tabs for FoodBox, Contact, Food Items, and Category. A search bar is present. On the left, there's a sidebar titled "Latest Products" with categories: Indian, Italian, Chinese, and Mexican. Below the sidebar, there are four columns of food items:

- Chole Bhature [2 Bhature]**: Indian dish, ₹129, View button.
- Masala Dosa**: Indian dish, ₹130, View button.
- Fish Fry**: Indian dish, ₹129, View button.
- Chicken Korma**: Indian dish, ₹129, View button.
- Pasta**: Indian dish, ₹129, View button.
- French Fry**: Indian dish, ₹229, View button.
- Chinese Samosa**: Chinese dish, ₹229, View button.
- Momo's**: Italian dish, ₹229, View button.

At the bottom left, it says localhost:3000/products/indian.

Product Details:

The screenshot shows a web browser with the URL localhost:3000/products/1. The page has a header with tabs for FoodBox, Contact, Food Items, and Category. A search bar is present. The main content is for the product **Chole Bhature [2 Bhature]**:

Chole Bhature [2 Bhature]
Price: ₹129
Status: In Stock
Qty: 1 (dropdown menu from 1 to 12)
Add button

Description: The all time Favourite! for Indian food. It's a delicious combination of soft bhature and tangy chole.

Cart Page:

The screenshot shows a shopping cart interface for 'FoodBox'. At the top, there's a navigation bar with links for 'Food', 'React', 'Contact', 'Food Items', 'Category', a search bar, and a user profile. A 'Cart' button is highlighted with a red border, indicating 3 items. The main area is titled 'Shopping Cart' and lists two items:

Item	Description	Price	Quantity	Action
Chole Bhature	[2 Bhature]	₹129	1	<input type="button" value="Remove"/>
Masala Dhosa		₹130	2	<input type="button" value="Remove"/>

To the right, a summary box shows 'Subtotal (3) items' and '₹389.00'. A large red 'Proceed To Checkout' button is at the bottom.

Purchase Table Database:

The screenshot shows a MySQL Workbench interface with a result grid titled "Purchase Table Database". The grid displays data from a table with columns: purchase_id, categories, date, email, price, and purchase_name. There are two rows of data: one for purchase_id 01 (Indian food, suraj@foodbox.com, 105, suraj) and one for purchase_id 02 (Chines food, vijay.foodbox.com, 889, vijay). The remaining columns for these rows are filled with NULL values. The interface includes standard navigation and search tools at the top.

purchase_id	categories	date	email	price	purchase_name
01	Indian	11/02/2021	suraj@foodbox.com	105	suraj
02	Chines	NULL	vijay.foodbox.com	889	vijay
NULL	NULL	NULL	NULL	NULL	NULL

Conclusion :

Further improvements to the Application can be done which may include .

- Improve Design .
- Add multiple Payments Method.
